HARBORTOUCH

CASIO TK 1550 ELECTRONIC CASH REGISTER RESTAURANT SOLUTION

SPECIAL
OFFER!

Harbortouch presents the first electronic cash register with integrated credit card processing. This exclusive technology now delivers the ultimate payment solution and its yours free of charge.

Designed with the most demanding restaurant environments in mind, this state-of-the-art cash register is built with a flat membrane keyboard to withstand liquid spills, dirt and other foreign particles. Additionally, the keyboard layout can be customized through a simple and easy to use online wizard, allowing you to know the exact specifications of your register before it ever reaches your doorstep. Complete with cash drawer and backlit customer display, this electronic cash register is the perfect solution for any restaurant establishment.

Integrated Payment Processing

Each electronic cash register comes complete with a secure (PCI PED*) integrated payment terminal to enable fast and user friendly payment options. This secure device supports either dial-up or ethernet connectivity and its sleek, compact design fits easily in the palm of your hand. With a wide array of convenient features including guest check tracking, it is the perfect device to streamline your electronic payment system.

Enjoy all the functionality of an electronic cash register with integrated credit card processing at no cost! Contact your sales representative today for more information.
